Note on buckslip to 

Dick:

This kind of project as a part of the GIR seemed appropriate. Newly applied criteria, since the GIR has been discontinued, may provide a negative answer to doing these kinds of projects. Who is going to use the info? Why is it important enough to spend 200 man-hours on? etc.

/s/ JAB

Since job was completed for GIR, will approve.

~~To AD/RR-1 July~~
